

HIPAA  Secure Now!

# Productivity Suite

for PHishMD clients

AVAILABLE  
APRIL 1, 2024

# Prescribe Peace of Mind.

You joined healthcare to make a difference, but all too often more time is spent in front of a computer screen than with patients. HIPAA Secure Now's mission is to empower employees to navigate technology securely and efficiently.

Our new Productivity Suite, included with PHishMD subscriptions, is a holistic and proactive solution that pairs cybersecurity with platform-specific education. By fostering a less hectic work environment, we aim to reduce the likelihood of an employee hurriedly clicking on a phishing email.

Want to learn how to make your office more efficient?

# What's New?

## Microsoft 365 **FUNDAMENTALS**

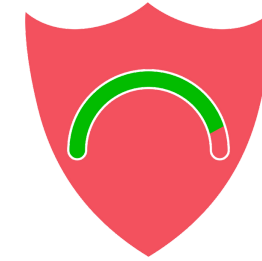

### New M365 Fundamental and Cybersecurity Courses

In addition to weekly cybersecurity training videos, users can complete fundamental courses in Microsoft Word, Excel, Outlook, PowerPoint, and Teams, and platform-specific cybersecurity trainings for Microsoft 365 and Google.

## Microsoft 365 **NANOS**

### Nanos<sup>©</sup>

Time-efficient and engaging Nanos<sup>©</sup> provide useful Microsoft and cybersecurity tips in less than 60 seconds. Find them in the Newsfeed, in the form of short videos, infographics, or recaps.

### HIPAA Secure Now Teams App

Portal training notification and access, all from within Microsoft Teams. Increase engagement effortlessly and take training on the go with the mobile Teams App.

*Coming later in 2024*

Interested in more time with patients and less with computers?
